The city of Tokyo burns

by MiaQc

Summary

A short tragic fanfic featuring an evil Sailor Mars.

- A translation of La ville de Tokyo brule by MiaQc

The city of Tokyo is burning. The fire was started by Sailor Mars. Sailor Moon and the other Inner Guardians can't believe this is possible. How could Rei have accepted darkness and evil? Whatever the case, they must stop her.

“Sailor Mars!” Sailor Moon cries out when she sees her flying through the sky.

“Well, well, Sailor Moon, the crybaby!” Mars says, laughing softly.

Sailor Moon notices the black wings protruding from her back.

“Why did you do this?” asks Sailor Mercury.

“All those innocent people... dead because of you!” says Sailor Venus coldly.

“Surrender!” orders Sailor Jupiter.

“NEVER!” screams Sailor Mars.

She attacks her friends with black feathers as sharp as razor blades. Sailor Jupiter uses Sparkling Wide Pressure to protect herself and destroy some feathers. Sailor Mercury uses Shine Snow Illusion to freeze the feathers heading towards her. Sailor Venus uses Rolling Heart Vibration to destroy others’ feathers. Sailor Moon wanted to use Moon Princess Halation but she took too long. The feathers cut her body with large, bleeding gashes and one of them reaches her neck. As the Guardian of the Moon falls slowly to the ground, dead, Sailor Mercury, Mars, and Jupiter scream. Sailor Mars laughs louder.

“You can't stop me!” she said, hurling her flames at the Inner Guardians, burning them alive. Their screams were music to Sailor Mars' ears. “I am *Sailor Mars Noir*! Now, the world will burn!”
